

Antique Brown Barnwood

Yep, the Real McCoy (and maybe Grandpappy Amos pitched hay on these very boards).

A rustic masterpiece, Brown Antique Barnwood offers a dramatic weathered face in a warm and cozy brown palette. Rough textured and marked by nail holes and tool marks: the scars and dents of a working life well lived.

Antique Barnwood is carefully reclaimed from siding, roof boards, granary boards, loft floors and other parts of vintage structures. Antique Barnwood is regularly used for exterior siding, interior paneling, ceiling material, soffit material, fascia, base and case, trim, doors, cabinets, etc.

Aiming for a less uniform look? Create your own blend of browns and grays by selecting from Brown and Gray Barnwood.

Combinations of Rough and Smooth can also be ordered to your preference.

Widths from 4" to 12"
1x and 2x thick
4' to 12' Long

Antique/Reclaimed Barnwood is a premium product. If you want the look of Antique Barnwood at a less expensive price point, take a look at our Harbor Fir Brown, designed to give you the best value for your dollar!
